

Ten percent of all funds collected in its forthcoming fund drive will be turned over to the Red Feather Campaign, the TCA announced last night. At the same time, the Red Feather group made clear that it would not solicit any Institute living group. Considerable opposition was voiced at the last meeting of Institute Committee against allowing outside philanthropic groups to solicit on the campus while the TCA was requesting funds at the same time.

Sympathizers To Rally Around Struik's Defense

Committee Again Denies Recent Charges; Enlists Financial Aid for Trial

A defense committee has been set up by friends and sympathizers of Institute Mathematics Professor Dirk J. Struik, now suspended. Struik was indicted on September 13 under the laws of Massachusetts on charges of advocating, counselling, and inciting "the overthrow by force and violence of the government of the Commonwealth of Massachusetts and the government of the United States."

In a prepared statement released by the professor last Sunday night, the Defense Committee repeats Struik's previous denials of these charges. The statement goes on to say, "Those who know Professor Struik, either in his position at the Massachusetts Institute of Technology, or as a citizen, have confidence in his integrity and are convinced that these charges are without foundation."

Struik told *The Tech* that District Attorney George E. Thompson had not as yet presented a bill of particulars outlining specific charges against him to the defense counsel. Such a list is required by law; and Struik does not know the reason for the delay in its presentation or exactly when he will eventually be brought to trial.

Charges Intimidation

In the absence of specific charges, he has so far planned his defense around the general principles of civil rights. He feels that the indictment represents an intimidation of himself and other teachers who hold unorthodox and unpopular political, economic, or social viewpoints.

Contributions for Struik's defense have come from all over this country and from a few foreign sources. The American Civil Liberties Union has indicated a desire to join in his support, and a civil rights group in New Jersey has offered financial help. The professor is sure he will have enough money to conduct his defense.

Defense Statement

The statement by the newly

Naum Gabo Constructions Are On Display At Hayden

A retrospective exhibit of sculptures by Naum Gabo is now on display in the new gallery in Hayden Library. Known under such names as "Construction in Space," "Circular Relief" and "Translucent Variation on Spheric Theme," the sculptures have a markedly modern character. The works may be seen from 10:00 a.m. 'til 5:00 p.m., Monday through Friday, until November 24.

Photo by Burekhardt
"Linear Construction in space No. 2," one of the works by Naum Gabo at the exhibition gallery in Hayden Library

West Flag Pole Must Come Down

The west flagpole in the Great Court has to be replaced. Guy lines tied to it have been attached as a security measure in case the rotted wooden pole should topple.

Men from the Atlantic Flag Pole Company examined the west pole last week and are at present going over the east pole. They built a scaffold around the 100-foot pole, took off the ball on the top and sawed off a three-foot section. This section was found to be rotten. Thus the west pole was condemned; the fate of the east pole is as yet undecided.

When the poles were last painted,
(Continued on Page 4)

Born in 1890 at Briansk in Central Russia, Gabo was sent by his father to the University of Munich in 1909 to study medicine. However, he found that his real interests lay in science and art. In 1914 he changed his name from Naum Pevsner to Gabo to distinguish himself from his brother Antoine, also a sculptor.

His first modernistic sculpture came out the following year. Seven years later, he was sent by the Soviet Government to supervise the Constructivist section of an exhibition in Berlin of all phases of Russian art.

"Stijl" Group

Katherine Dreier was the first person to bring Gabo's work to this country. Later in 1924 he and his brother held a joint exhibition of their works in Paris. Two years later they were shown with Theo van Doesburg of the "Stijl" group at the Little Review Gallery in New York City. The brothers were also represented in the International Exhibition of Modern Art sponsored by the "Societe Anonyme" at the Brooklyn Museum and in 1927 at the Machine Art Exposition in New York. In designing the scenes for the ballet "La Chate," the brothers works brought to the stage and the audience for the first time their peculiarly lyrical Constructivism.

World-Wide Showing

Naum Gabo lived in Germany, France, and England. His works were later exhibited in Paris, London, New York, and Chicago. Moving to the United States in 1946 from England, Gabo settled in Connecticut where he now lives.

Material for the exhibit in the Hayden Library comes from the artist, the Addison Gallery of American Art, and the Andover and Baltimore Museum of Art.

Bertrand Russell Speaks Of Mankind And Politics

Freshmen Forfeit Entire Term Rent If They Move Out

By HUGH GALLAGHER

All freshmen moving out of the dormitories for any reason other than financial necessity will forfeit their entire board and room rent for the semester, according to an announcement made at the last Inter-Fraternity Council meeting. However, upper classmen will continue to be subject to the twenty-five dollar fine and will be returned the unused portion of their board and room rent.

Residents who move within the dormitories are subject to a ten-dollar charge unless their move is to the advantage of the dormitory.

New Policy

Last year, freshmen were subject only to the twenty-five dollar fine. But at the end of the Spring term, before the arrival of the new Dean of Students, E. Francis Bowditch, a new policy was decided upon. Freshmen are allowed a week after registration day to pledge a fraternity and to leave the dormitories with a full refund; but after this time, they must remain in the dormitory all semester.

Dean Bowditch, when interviewed by the *Tech*, stated that the whole problem of required freshmen residence on campus and deferred fraternity rushing must be put up to a complete re-examination; that it must be studied from a sane and sensible viewpoint.

Parties Will Be Consulted

Before making any decision, the Dean plans to hear the opinions of all parties concerned. He says, "There will be no snap decision. The Fraternities have played a vital and important part in the life of the Institute; their welfare must be considered."

NOTICES

East Campus Reception

On Wednesday evening, October 24, between the hours of 8:30 p.m. and 10:30 p.m., Burton Room will be open to the residents of East Campus for the reception of two new faculty dwellers, Prof. S. Curtis Powell and his assistant Ken Gordon.

Prof. Powell wishes to meet all the East Campus residents and acquaint himself with their problems and customs. Refreshments will be served.

Water Polo

Starting on October 25, there will be formal water polo coaching every Thursday at 6:15 p.m. Coaching and explanation of rules will be given at the following hours: — I. Tuesday, October 23, Room 5-108, 12 noon, and Room 5-204, 5:00 p.m., II. Thursday, October 25, Room 5-108 and Room 5-204 at 5:00 p.m.

L.S.C. Presents Lecture By British Philosopher In 10-250 On Friday

By GORDON EDLIN

On Friday, October 26, the Lecture Series Committee will present the famed British philosopher, mathematician and satirist Bertrand Russell. The lecture, entitled "Human Nature and Politics," will be presented at 5:00 p.m., in Room 10-250.

Professor Russell, recently arrived in this country, is scheduled to speak at many of the leading American colleges during the coming month. He received the Nobel Prize for literature in 1950 and is the author of such books as: "Authority and the Individual," "History of Western Philosophy," "Principles of Mathematics," "Marriage and Morals." His most monumental achievement in fifty odd years of writing is the "Principia Mathematica" which was written in conjunction with Professor A. N. Whitehead.

Mathematical Logic

Russell, one of the world's most extravagant individualists, has left little territory untrod by his prying intellect. Starting out with an avid enthusiasm for mathematics, Russell soon discovered that only the most abstract of the scientific fields appealed to him. The product of his attempt to justify the logic and truth in mathematics was the first volume of "Principia Mathematica" which appeared in 1910, and which has since developed into the science of mathematical logic. In the years that followed Russell expanded his genius into the fields of education, social structure, and morals.

Russell has never compromised his beliefs with necessity and as a result has received criticism from many sources. This has never deterred him from his convictions and he has always replied to his severest critics with patient and sometimes humorous insight. Having always been a profound advocate of individualism and free-expression, he has frequently warned against the dangers of mechanizing and standardizing education and society.

Self-Written Obituary Published

With characteristic satire Russell has already succeeded in publishing

Potential Buck Rogers' Swoop Through Futuristic Escapades

By ED EIGEL

Technology is a fairly well-known school in the United States, and throughout the world for that matter. This past week, however, has put us even more in the public eye, via both national magazines and local newspapers.

Everyone has probably read the article in the *Saturday Evening Post* concerning our glorious institution. It is unnecessary to go over what was said about our "bright and superbright," "gee-whizz atmosphere," etc. The general reaction seemed to be, "Is that us?"

However, last Saturday evening several of "the boys," apparently enthused by the above-mentioned article, decided to show the world in general, and Brookline in particular, how one of our super-weapons operated. Their demonstration took the form of a kidnapping.

Briefly, the experiment ran something like this: A man stood waiting for a bus on the street corner. A large limousine screeched to a stop

in front of him, and two thugs wearing gas-masks jumped to the ground. Pulling an ultramodern secret weapon from his pocket, one of them enveloped the poor victim in a cloud of white gas. After he had been rendered unconscious by the gas, the masked men picked him up and threw him into their hearse and drove off in the direction of Kansas City.

This is how the nefarious deed appeared to the people who saw it happen. What actually took place was somewhat more innocent. The "victim" stood on the street corner waiting. The five villains, wearing goggles, pulled up to the curb in their car. Two of them hopped out and sprayed their victim with talcum powder. He fell to the ground, and was picked up and thrown into the car by his two assailants. The automobile then took off.

As it actually occurred, the prank was simple enough. However, the police heard only the by-standers' (Continued on Page 4)

CALENDAR OF EVENTS

OCTOBER 24 TO OCTOBER 30, 1951

WEDNESDAY, OCTOBER 24

Nautical Association. Meet between Harvard Freshmen, Tabor Academy and M.I.T. Freshmen. Sailing Pavilion, 3:00 p.m.
 Varsity Soccer Team. Match with Tufts. Briggs Field, 3:00 p.m.
 Military Science Department. Smoker for advanced course ROTC students. Emma Rogers Room, 4:00-6:00 p.m.
 Electrical Engineering Department. Colloquium: "High-energy Radiation." Professor John G. Trump. Room 6-120, 4:30 p.m.
 Catholic Club. Meeting and lecture: "Censorship." Reverend Edward Murphy. Room 2-190, 5:00 p.m.
 Inter-Varsity Christian Fellowship. "Follow Me." C. Stacey Woods. Room 7-103, 5:00 p.m.
 M.I.T. Mathematics Society. Lecture: "Some Comments on Elementary Group Theory." Professor G. E. Thomas. Room 4-370, 5:00 p.m.

THURSDAY, OCTOBER 25

Mechanical Engineering Department. Coffee Party for Senior Class. Emma Rogers Room, 3:30-5:30 p.m.
 Biology Department. Colloquium: "Some Experimental Backgrounds for Cancer Thermotherapy." Dr. Sidney Farber, Children's Medical Center, Boston. Room 10-275, 4:00 p.m.
 Physics Department. Colloquium: "Fluctuations of the Rotation of the Earth." Professor A. Scheibe, Physikalisches Reichsanstalt, Berlin. Room 6-120, 4:15 p.m.
 Lecture Series Committee. Film: "Jane Eyre." Room 10-250, 5:00, 7:30 and 9:30 p.m. Admission 30c.
 Technology Christian Association. T.C.A. Drive Dinner. Campus Room, Graduate House, 6:00 p.m.

FRIDAY, OCTOBER 26

Cross Country Meet. M.I.T. vs. University of New Hampshire at Franklin Park, 2:30 p.m.
 Aeronautical Engineering Department. Seminar: "Bird Flight and Migration." Professor Charles Blake. Room 33-319, 4:00 p.m. Coffee from 3:30 to 4:00 p.m. in the duPont Room.
 Mechanical Engineering Department. Seminar: "The Effect of Pressure Waves in Liquids on Metals." Professor Daniel D. Streeter, Jr. Room 3-370, 4:00 p.m. Coffee from 3:30 to 4:00 p.m. in Room 3-174.
 Pershing Rifles. Maneuver. Assemble outside of Building 24, 6:30 p.m. All pledges and members must attend.
 American Society of Civil Engineers—Student Chapter. Study of the Reynolds Number of Malt Extracts. 5:15 Club Room, Walker Memorial, 8:00 p.m.

SATURDAY, OCTOBER 27

Nautical Association. Freshman Championship. Sailing Pavilion, 1:00 p.m.
 Freshman and Varsity Soccer Teams. Match with Rensselaer Polytechnic Institute at Troy, New York, 2:00 p.m.

SUNDAY, OCTOBER 28

Nautical Association. Freshman Championship. Sailing Pavilion, 10:00 a.m.

MONDAY, OCTOBER 29

Architecture Department. Lecture: "New Towns in Great Britain." Anthony Minoprio, British architect. Emerson Room, 4:00 p.m.

TUESDAY, OCTOBER 30

Varsity Soccer Team. Match with Harvard at Harvard, 2:00 p.m.
 Freshman Soccer Team. Match with Harvard. Briggs Field, 2:30 p.m.
 Metallurgy Department. Colloquium: "Metallurgical Problems of the Defense Department." Dr. William A. Harris, Jr., Technical Assistant to the Chairman, Metallurgy Advisory Board, National Research Council, Washington, D. C. Room 6-120, 4:00 p.m.

TECHNOLOGY CHRISTIAN ASSOCIATION

The Technology Christian Association is sponsoring an Annual Financial Drive among students at the T.C.A. Office, Second Floor, Walker Memorial, Monday, October 29, through Friday, November 2.

EXHIBITIONS

An exhibition of photographs by Samuel V. Chamberlain is on display in the Lobby of Building 7 through October 29.

Photographic Salon prints by Thomas J. Newett of Park Ridge, Illinois, are being exhibited in the Photographic Service Gallery, Basement of Building 11, through October 29.

Photographic Salon prints by Bernard G. Silberstein of Cincinnati, Ohio, will be on display in the Photographic Service Gallery, Basement of Building 11, from October 30 to November 26.

CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesdays with announcements for the following week. Notices, typewritten and signed, must be in the Office of the Editor, Room 7-204, not later than noon on Thursday prior to the date of publication. Material for the Calendar of October 31 - November 6 is due October 25.

Letters to the Editor

The Tech

Dear Sir:

The three new Bulletin Boards seem to have been unanimously accepted as a welcome change in "signery" at Tech. Yet there still is a slight amount of doubt as to their legal use.

The present rules state that "one poster per event may occupy a space for two weeks." Some Institute Committee Members are still not sure whether or not the statement should read "one poster per activity." Let me therefore enter a plea for all those organizations whose program calls for more than one event in any two-week period.

To start at a noticeable top, we have the Athletic Association which certainly encompasses a few dozen activities and has many events scheduled in any one week. Would it be fair to restrict them to one poster?

Passing to a smaller and yet highly important organization, we find that the Outing Club has several events planned for each weekend. The Religious Organizations usually divide their programs into Services, Forums, Dances, and General Meetings.

How can one poster effectively advertise more than one of these events?

Does the one-poster-per-organization idea not obviate the purpose of the new bulletin boards?

Of course, at the other end of the scale there are the once-a-month activities such as the always wel-

(Continued on Page 4)

off the beat

By ROBERT R. COTTON

The Boston Symphony will return to Symphony Hall this week to resume its Friday afternoon and Saturday evening concerts. It has been on a tour of several New England cities during the past week. The program will be made up of works of Beethoven, including the Overture to "Lenore" No. 3, and the Eighth Symphony and violin concerto with Jascha Heifetz as soloist. It should also be mentioned that the Lowell Institute is broadcasting the Saturday evening concert on FM. For those on campus, it can be heard in the music room of the library from 8:30 to 10:30 p.m. The doors are open at 8:15.

The Aaron Richmond Celebrity series will begin its 51-52 season with a recital given by Victoria de los Angeles, Spanish soprano, at Symphony Hall on Sunday afternoon, October 28. Her program will include a Monteverdi aria from "Orpheus," the Jewel Song from "Faust," and selections by Scarlatti, Handel, Schumann, Faure, in addition to a group of Spanish songs.

The Cambridge Collegium Musicum will open its eighth season on Monday, October 29, with a program including the works of Bach, Vivaldi and other late 18th century composers. Edwin Bodky, piano and harpsichord; Wolfe Wolfson, violin; and Samuel Mayes, violincello, are the outstanding members of the group of artists who will present the program. In this same category, the Lexington

Avenue YM-YWCA will begin a marathon series of Haydn String Quartet recitals beginning Monday, October 29, through May 5. The performing artists are members of the Schneider String Quartet which was formed last year under the leadership of Alexander Schneider. Mr. Schneider was formerly a member of the Budapest Quartet, was associated with Ralph Kirkpatrick, an excellent harpsichordist and was a member of the group of American artists who attended the Casals Festival held two summers ago in Prades. It was there that he met and played with the future members of the Schneider String Quartet.

Russell

(Continued from Page 1)

ing a self-written obituary to be published in 1962 upon his death. That, however, is yet quite distant so we still have the privilege of drawing upon a wisdom that has distilled itself through one of the greatest periods of human development, one which has survived many of the minds that drew upon it for sustenance.

Richards Cup To Be Given Winner Of Inter Class Crew

By ROY KAPLOW

The annual interclass crew race will be revived next month after a lapse of eleven years. On Saturday, November 13, crewmen representing the senior, junior, sophomore, and possibly the freshman classes will compete in a mile race on the Charles for the George Henry Richards Interclass Rowing Challenge Cup.

Line-up

This is the first year since 1940 that there have been enough oarsmen at Tech to enable all of the classes to fill a shell with the required eight men and a coxswain. Although the freshmen have more than enough men, it is doubtful that they will enter since they probably will not have had enough rowing experience to give much competition to the other shells.

The following men have been named by Jim McMillin as probable oarsmen in this classic race:

Sophomore: Perrin, Gross, Hoffman, Riedinger, Hartrick, Kolodkin, Alsen, Bacezsky, Hair, Waye—cox.

Junior: Stern, Bunchu, Lindstrum, Forman, Gleckman, Palmer, Erickson, Colbeth, Spracher, McKay—cox.

Senior: Jans Sherman, Brodzik, McGinley, Casson, Semple, Stengle, Weiss, Larks, Guthrie, Adams—cox.

Attention—Freshmen and Sophomores!!

The sports staff of WMIT will present a special program on Wednesday night, the 24th, in reference to Field day events. At 9:30 P.M. all the coaches, the manager of Field Day, a member of the administration, and an alumnus will be interviewed. At the end of the hour the radio audience will know the history of Field day, some remembrances of the old days, and the general spirit in which it takes place.

Tug-of-War

On Wednesday, October 24, the Frosh and Sophs will engage in a practice pull in preparation for that sporting event on Field day. The meeting will take place at five P.M. at Briggs Field. An official sign-up list will be passed around at the meeting. All interested and available men are urged to attend.

Technology Cross-Country Team Takes Second Straight; Smothers Holy Cross; 46-15

By ROBERT BURDITT

Technology's power laden cross-country team breezed to its second straight victory this season last Friday afternoon at Franklin Park, overwhelming a weak Holy Cross squad, 46-15. The well-balanced Beaver harriers captured the first six places in a near sweep of the Purple runners.

Captain Charles Vickers, Bill Nicholson and John Farquhar, who has shown tremendous improvement this season, jogged home hand-in-hand to tie for first place in 22 minutes, 32.7 seconds, excellent time for dual meet competition. Half a minute later John Avery, Jerry Tiemann, and Clyde Baker of the Engineers crossed the line with only three seconds separating the three of them.

Freshmen Lead Holy Cross

A pair of Freshman runners, Earl Deblieux and Bob Shea, led the Holy Cross team by capturing seventh and eighth places. Both showed excellent promise but lacked the experience to keep pace with Tech's first contingent.

Competing for Oscar Hedlund's runners for the first time this season, Ian Williams, Hugh Nutley, and John Camp placed eleventh, twelfth, and fourteenth in the order of finish.

Meet New Hampshire

This Friday afternoon both the Tech varsity and Frosh will take on teams from the University of New Hampshire at Franklin Park at 2:30 p.m. So far this season, the New Hampshire varsity squad has bowed to Northeastern by one point and was beaten by a very strong Boston University team.

M.I.T.-Harvard 6-0

Tech won a 6 to 0 victory over Harvard in Sunday afternoon's Rugby game, on Briggs Field, in the presence of about 200 spectators. The touchdowns were scored by Gene Franklin and Tom Hoffman.

Campus Interviews on Cigarette Tests

No. 25
THE
SEA
HORSE

This little gee-gee was all at sea. It was enough to upset his equine-imity. He'd been reading about those rush-rush cigarette tests—the quick sniff, the fast puff. "Hardly the scientific approach," he said in his confusion. But then he realized that one test is an equine of a different pigmentation—a thorough, conclusive test of cigarette mildness.

It's the sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke—on a day-after-day basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests,

Camel leads all other brands by billions

J. Paul Sheedy* Switched to Wildroot Cream-Oil
Because He Flunked The Finger-Nail Test

DON'T let those stripes fool you. J. Paul was no prisoner of love! His hair looked like a tiger rag, and he was feline mighty low. But did Sheedy buy a wig? No! He's not a cheetah! "I hate to be catty," his roommate said, "but even an ugly puss looks better with Wildroot Cream-Oil! Non-alcoholic! Contains soothing Lanolin! Relieves annoying dryness. Removes loose, ugly dandruff. Helps you pass the fingernail test!" Sheedy got Wildroot Cream-Oil, and now he has every girl on campus waiting in line for a date! So, be cagey... get a tube or bottle of Wildroot Cream-Oil Hair Tonic at any drug or toilet goods counter today. And ask your barber for professional applications. Then you'll be the cat's pajamas. But don't delay. Meow is the time!

Notices

M.I.T. Hillel

Smith Hillel is holding a dance Saturday, October 27th, at Smith College. Transportation will be available if you sign up on the Bldg. 10 Bulletin Board. Otherwise contact Marty Mills, Social Chairman, Burton House.

M.I.T. Hillel takes pleasure in announcing the following schedule of study groups:

Jewish Religion: A discussion group, Wednesdays, 4 p.m. First session, Oct. 24. **What's in the Bible:** Fridays 4-5, beginning Oct. 26. **Beginning Hebrew:** Tuesdays, 7-8 p.m., starting Oct. 23. **Hebrew for those who can read:** Thursdays 7-8 p.m. First session, Oct. 25. **Choral Group:** Rehearsals every Sunday at 6 p.m. **Dance Group:** Wednesdays, 8 p.m. Brandeis University Science Hall. For transportation call Norm Abramson, EL 4-4149. All sessions, unless otherwise stated are held at Hillel House, 5 Bryant St., Cambridge, TR 6-6138.

The Sargent and Lesley Hillel Foundations are giving a dance Sunday, October 28, at 3 p.m. at Hillel House, 5 Bryant Street, Cambridge. M.I.T. Hillel has been invited to attend IN FULL FORCE.

L. S. C. Speaker

This afternoon the Lecture Series Committee will present the renowned religious authority, Dr. Jacques Demarquette, in a speech on "Mysticism in Religion." The lecture will be at 5:00 p.m. in Room 10-250; admission is free.

(Continued from Page 1)

Boy's Work Smoker

Boy's Work annual smoker will be held in Tyler Lounge, Thursday, October 25, at 5:05 p.m. All interested members of the M.I.T. family are urged to attend.

Technology Sailors Lose Wood Regatta

Technology sailors, losing an early lead because of two disqualifications in division B, finished second to a Coast Guard team whose consistent sailing netted them the Jack Wood Trophy. The Jack Wood Trophy, a semi-team event raced annually on the Thames, is held in honor of Jack Wood, the present Sailing Master at M.I.T., who was responsible for building the sailing facilities at the Coast Guard Academy while he was stationed there during the past war. Dartmouth finished third over fourth-place Harvard, last year's winner of this trophy. The final scores for each team are: (1) Coast Guard Academy, 80, (2) M.I.T., 72½, (3) Dartmouth, 70, and (4) Harvard, 66½.

Ed Melaiika and Paul Goldan, and John Rieman and Alain de Berc raced in division A for M.I.T.; Jake Kerwin and Pete Felsenthal, and Milt Almquist and Ted Garcia sailed in division B. Ed Melaiika, with 24¼ points, was the high scorer in the regatta.

Struik

(Continued from Page 1)

formed Struik Defense Committee read in part, "The persecution of men and women for their ideas is taking place with increasing frequency in our country. We here express neither agreement nor disagreement with Professor Struik's opinions, but we consider that his indictment is a new attempt to stifle serious political discussion. This indictment menaces the freedom of expression of all of us, and in particular that of teachers. At a time like this, in which the American people have to make decisions of the gravest importance, it is imperative that all opinions be heard without intimidation."

Letters

(Continued from Page 2)

come IDC Dances or the spectacular appearance of a Voo Doo issue. Such organizations probably do not occupy a space for more than a week every month. The rule as it stands at present, One Poster Per Event, seems to be in the best interest of all concerned.

Another point is the indiscriminate removal of posters from boards by some Institute Committee members. In the United States, a person is innocent until proven guilty. Would it therefore not be a good idea to leave questionable posters where they are until the Institute Committee, at one of its sessions, has decided that this poster is "illegal"? Should not a representative of the activity sponsoring the poster be asked to state his case?

Buck Rogers

(Continued from Page 1)

story, and sent out an alarm for the "kidnappers," which resulted in their apprehension. When the police learned it was all a joke, they warned the boys not to try it again, as they might become the target for some well-meaning cop who was not in on the gag. All in all, it was quite a prank, as jokes go, but not a recommended one.

Flag Pole

(Continued from Page 1)

the painter noticed signs of decay. The older west pole will probably be replaced by a new steel one. If the newer, east pole is found to be in good condition, its present coat of paint will be burned off with a blow torch and a new one applied. It was built in 1929, its brother in 1917.

"He is rather nearsighted — but
he never forgets the Angostura*
in a Manhattan!"

ANGOSTURA.
AROMATIC BITTERS

MAKES BETTER DRINKS

*P.S. Smart hosts use their heads when
they use Angostura to bring out the true
flavor of Manhattans and Old Fashioneds.
Try Angostura in soups and sauces, too.

Be Happy- GO LUCKY!

LUCKIES TASTE BETTER!

It takes fine tobacco to give you a better-tasting cigarette. And Lucky Strike means fine tobacco. But it takes something else, too—superior workmanship. Luckies are the world's best-made cigarette. That's why Luckies taste better. So, Be Happy—Go Lucky! Get a carton today!

STUDENTS!

Let's go! We want your jingles! We're ready and willing and eager to pay you \$25 for every jingle we use. Send as many jingles as you like to Happy-Go-Lucky, P.O. Box 67, New York 46, N. Y.

Luckies are the only smoke
with taste so rich and mild.
To go without these cigarettes
would really drive me wild.

Ned Falkenstein
Miami University '51

I've often heard professors say
that teaching me was tough,
But I learned L.S./M.F.T.
in less than half a puff.
